

ε 37. (Amended) The conjugate of claim 1, wherein the drug is coupled with an isolated peptide sequence of SEQ ID NO. 8 and wherein the peptide sequence further comprises penicillamine.

ε 42. (Amended) A conjugate comprising a first portion and a second portion, wherein said first portion is a peptide and said second portion is a drug, said peptide being derived from ICAM-1 or LFA-1 and being characterized by binding to LFA-1 or ICAM-1 receptors on leukocytes and by being internalized by cells expressing at least one of said receptors.
